

## Home theater Blue Diamond V.2, Black Vector V.2 & Qube

UNITED KINGDOM: Home Cinema Choice, august 2005

**Verdict: 5 stars out of 5**

**“Once again this is an impressive 5.1 system from Audio Pro. Stylish and surprisingly good value, they are well worth auditioning.”**

### Conclusion

“Once again this is an impressive 5.1 system from Audio Pro. It delivers a superb all round performance, with great imaging, dynamics, clarity and intelligibility, even when it is under heavy drive, with bass that makes you look for paired coffee-table sized woofers that simply ain’t there. Stylish and surprisingly good value, they are well worth auditioning.”
