

Level 03 – Detailed Elegance

SWEDEN: HiFi & Musik, April 2005

Value for money: 9 out of 10

“Swedish Audio Pro belongs to the most productive loudspeaker-manufacturers in the world right now. Their model line-up is increasing all the time and the new Level series is the latest addition to the family. The series consists of two monitor models, where the largest is named Level 03, a floor stander, a center channel and the very special surround speaker Level Qube.”

“Level 03 is equipped with the company’s own developed drivers. The woofer is a polyglasscone on 6,5” and the tweeter is a 1” silk dome. The finish is without question elegant with cherry (vinyl) on the side, while the rest has a brushed champagne finish. The speaker gives an elegant impression and the finish and the material quality is high. On the back side you will find a set of gold plated binding post accepting both, spade lugs, banana plugs, and bare wire.”

“The sound is clear and relatively open, and the musical swing catches the listener immediately. There is no risk falling asleep, because here the drama is evident in every track, no matter if it is a classic piece or death metal. There is bass, by the smooth and alert kind.”

“The bass contours are firm and very finely engraved. But what impresses most is the sky-high richness of detail.”

“These are speakers to have plenty of fun with, and it is almost as much HiFi as music. If you have 4000 SEK in your pocket, it would be quite stupid not to listen to Level 03.”

Verdict

Sound, hifi: 7 out of 10

Sound, music: 8 out of 10

Finish: 7 out of 10

Value for money: 9 out of 10
