

**STEREOW** HD 970  
July 2005

**“a one-of-a-kind in its price class.”**

“Harman Kardon®s HD 970 enriches the affordable audiophile class with a great-sounding highlight that at the same time serves as a high end D/A converter for external digital sources. A best-buy!”

“Sound-wise Harman has again reached its former and usual heights. We really have to describe the price-performance ratio of the HD 970 at least as pretty amazing.”

**“Without competition.”**

“For the stereo freak the search for a CD player seems to be finished with the Harman Kardon® HD 970.”

“During the listening tests the player proved to be a master in playback”

“An absolutely perfect CD player in its price class. Smooth, clean sound. 2 Digital inputs for other products to connect to. MP3-playback!”

**HiFi Test TV-VIDEO**

**“Standing ovation.”**

**HiFi Test Spitzenklasse 1+**

“The CD player surprised us with measurements that we did not hold for technically possible.”

“The secret is the proprietary Harman Kardon Real-time Linear Smoothing III processing, working with 24 bit/384 kHz conversion.”

“... enables buying a really highly recommended stereo combination, that plays at a for its price almost incredible level.”
